

ORIGAMI CAT

Origami artist Coco Sato joins Lexus Creates to teach you how to fold an origami cat. The folding of an origami cat is one of the qualifying tests for takumi, the master artisans who craft Lexus vehicles. In order to pass the test, they must fold a cat shape with their non-dominant hand.

Once you mastered the steps in folding an origami cat, we encourage you to try it with your non-dominant hand.

Tools:
Origami Paper

HOW TO FOLD AN ORIGAMI CAT

1 Place the square paper diagonally in front of you.

2 Fold the paper in half diagonally to create a triangle shape.

3 Press firmly on folded line.

4 Fold the upper tip of the triangle downward.

5 Fold the bottom right corner upwards.

6 Do the same to the other side of the paper.

7 Flip the paper over. Fold the bottom tip upward.

8 Make sure to press down firmly on folded line.

9 Fold a smaller tip downwards to create the mouth of the cat.

10 Done!
